SUMMARY OF ST. LOUIS MARKETS

opening, but later the active options scored a moderate advance on reports of rain in many sections of the winter belt. It was thought that this would check the move-ment to market, but the effect of the weather conditions was offset when it became apparent that the drought situation would be greatly relieved by the rainfall. Most of the legitimate news was favorable to the selling side. There was no more talk of damage in the Argentine and foreign prices were generally on the downturn. Local bears, though not very active, followed up the advantage which they guined at the previous session, and in this they were aided by the Chicago contingent. Armour did not again come to the support of the buying side. The market was steadled for awhile by reports of good cash inquiries, but even this support was not well maintained and sentiment was generally bearish in the last hour. The volume of trading was small and fluctuations were narrow.

Corn was much stronger than wheat. Light receipts, had roads and higher cables

rere the main bullish influences. Both Dec. and May scored good advances.

May wheat opened 1/2 off and closed 1-16c off.

May corn opened %c up and closed %c up.

May oats closed unchanged. Receipts of produce were moderate and prices of fruits and vegetables were steady.

Local securities had fair support. Traction issues were well taken.

Yesterday's bank clearings were \$10,255,463, balances \$805,882. Discount rates were steady at 4% and 6 per cent.

Spot cotton was unchanged in the local market.

Stocks of Grain in Store.
